Source: PUI/vaccine data file, Georgia Department of Public Health. The Georgia Department of Community Health uses the PUI/vaccine data file to match Medicaid members by name and date of birth.

-Data only includes vaccinations that are reported to the Georgia Department of Public Health (i.e. does not include unreported vaccinations or vaccinations received at federal sites).

-Underreporting may also exist due to incorrect spelling of names and/or incorrect dates of births.

Vaccine Doses Administered By Week

Members Who Have Received At Least One Dose*

472,066

*Distinct count of members who started a vaccination series (includes fully and partially vaccinated members).
